§ 170.315(b)(3) Electronic prescribing

Measure Description:	Justification:	Associated Certification Criteria:
Prescription-related electronic transaction: **Create, Change, Cancel, Renew, Fill Status, Medication History including Status, Errors and Verification.**	We chose to concentrate on the aspects of this criterion that would: Provide a numeric value to indicate both how oftern this interoperability feature is being used as well as its compliance to the requirement. An increment to this measure indicates that Empower can create a NewRx SCRIPT electronic prescription message and transmit it to a pharmacy via Surescripts Network. This use case will also show successful integration with our ePrescribing partner DoseSpot and through its completion will reveal compliance to the associated criteria listed avbove.	

Metric Description:		Standards Implemented:
Report the % of all successful prescriptions sent over a (3) month period **Report the % transmission rate for these same time period** a baseline for future testing criteria	These rates will be used as	NCPDP SCRIPT Standard, Implementation Guide, Version 2017071 RxNorm, September 8,2015 Full Release Update
